

# Four Mallet Warm-Up

When played straight through without stopping,  
this warm-up takes exactly 30 minutes to complete.

Brian Mueller

**1a** ♩ = 80

Tritones, up chromatically

**1b** Same exercise, with minor 3rds (upward, drop left, collapse)

**1c** Same exercise, with minor 7ths

**1d** Octaves, upward chromatically with triplets

Continue upward

Downward, with mixed double laterals (this pattern or an improvised combination)

**1e**

Continue downward...

**2a** Interval Stretch: Expand upward to 10ths (or largest comfortable interval)

Repeat largest comfortable interval for at least 16 counts.

Continue expansion

Collapse upward

Expand downward

Continue Collapse

Repeat largest comfortable interval for at least 16 counts.

Continue expansion

Collapse downward

Continue collapse

**2b** Same exercise, but with Single Alternating Strokes  
(expand and contract upward and then back down)

**3a** R.H. Interval changes with optional independent roll [Repeat everything FOUR TIMES!]

\*Optional one-hand roll

The first system of musical notation consists of two staves. The right-hand staff (treble clef) contains a sequence of eighth-note chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, F4-A4-C5, G4-B4-D5, A4-C5-E5, F4-A4-C5, and G4-B4-D5. The left-hand staff (bass clef) contains a sequence of sustained chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, and F4-A4-C5. The system is divided into four measures by double bar lines, with a 2/4 time signature indicated in the second measure.

The second system of musical notation consists of two staves. The right-hand staff (treble clef) contains a sequence of eighth-note chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, F4-A4-C5, G4-B4-D5, A4-C5-E5, F4-A4-C5, and G4-B4-D5. The left-hand staff (bass clef) contains a sequence of sustained chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, and F4-A4-C5. The system is divided into six measures by double bar lines, with a 4/4 time signature indicated in the first measure.

The third system of musical notation consists of two staves. The right-hand staff (treble clef) contains a sequence of eighth-note chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, F4-A4-C5, G4-B4-D5, A4-C5-E5, F4-A4-C5, and G4-B4-D5. The left-hand staff (bass clef) contains a sequence of sustained chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, and F4-A4-C5. The system is divided into three measures by double bar lines, with time signatures of 3/4, 4/4, and 2/4 indicated in the first, second, and third measures respectively.

**3b** R.H. Octave Workout

The first system of musical notation for the R.H. Octave Workout consists of two staves. The right-hand staff (treble clef) contains a sequence of eighth-note chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, F4-A4-C5, G4-B4-D5, A4-C5-E5, F4-A4-C5, and G4-B4-D5. The left-hand staff (bass clef) contains a sequence of sustained chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, and F4-A4-C5. The system is divided into two measures by a double bar line, with a 4/4 time signature indicated in the first measure.

The second system of musical notation for the R.H. Octave Workout consists of two staves. The right-hand staff (treble clef) contains a sequence of eighth-note chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, F4-A4-C5, G4-B4-D5, A4-C5-E5, F4-A4-C5, and G4-B4-D5. The left-hand staff (bass clef) contains a sequence of sustained chords: C4-E4-G4, D4-F4-A4, E4-G4-B4, and F4-A4-C5. The system is divided into six measures by double bar lines, with time signatures of 3/4, 2/4, 4/4, 2/4, 2/4, and 4/4 indicated in the first through sixth measures respectively.

**3c** L.H. Interval changes with optional independent roll

\*Optional one-hand roll

**3d** L.H. Octave Workout

**5a** Single Independent Workout  
(chromatically upward with outer mallets)

Continue upward...

\* right hand is up 8va  
(on the highest C of a 5-octave marimba)

**5b** Single Independent Workout  
(chromatically downward with inner mallets)

Continue downward...

**5c** Collapsing and Expanding Doubles

First system of musical notation. The upper staff (treble clef) contains a sequence of sixteenth-note chords, each marked with a '6' below it. The lower staff (bass clef) contains a sequence of eighth-note chords.

Second system of musical notation. The upper staff (treble clef) contains a sequence of sixteenth-note chords, each marked with a '6' below it. The lower staff (bass clef) contains a sequence of eighth-note chords.

Third system of musical notation. The upper staff (treble clef) contains a sequence of sixteenth-note chords, each marked with a '6' below it. The lower staff (bass clef) contains a sequence of eighth-note chords.

Fourth system of musical notation. The upper staff (treble clef) contains a sequence of sixteenth-note chords, each marked with a '6' below it. The lower staff (bass clef) contains a sequence of eighth-note chords. The system concludes with a double bar line and a fermata over the final notes.

Continue expansion...

Continue collapse...

**6b** Descending Single Independents  
(first time 2 and 4, second time 1 and 3)

Downward expansion...

Downward collapse...

Continue expansion...

Continue collapse...

#### Ideas for Possible Variations:

Personalized variations on these exercises are highly encouraged. I have several simple variations that I frequently use, depending on my needs and the state of my technique. The main ones are listed below:

1) Change the Repetition Count. You can increase repetitions on less comfortable spots in the routine, or reduce the repetitions to expedite the warm-up process.

2) Change the Register. Most of the exercises can be played in a higher or lower register, which can be beneficial - especially, playing the octave workout (3b and 3d) down an octave is a good hand strengthener.

3) Change Rhythmic Intensity. Any time an exercise features a long series of one rhythmic value, you can either permanently or temporarily switch to a faster or slower rhythm. For instance, during exercise 1d, I often substitute two beats of 16th notes for the last two beats of triplets to intensify the workout. I also substitute triplets for some of the 8th notes in 1e. I sometimes substitute triplets for some of the 8th note repetitions of octaves in 3b and 3d. Also in 5a and 5b, sixteenths can substitute for the triplets (I usually replace the second beat of every fourth measure with triplets - but if I am feeling up to it I will play 16ths for the entirety of every 4th measure).

4) Change the Scale or Mode. In exercises that feature scales or arpeggios (exercise groups 2, 3, and 4), you can choose a different scale or mode to operate in. The interval stretch exercises (group 2) can be played in many positions. The interval change and octave exercises (group 3) also can be played in different keys - this can be particularly challenging. Most accessibly, the major scale / major arpeggio alternating exercises (group 4) can cover any combination of scales, modes, and arpeggios of chords containing 3 or 4 notes. I like to choose a mode (such as Dorian) for the scales on the way up, and play the related chord (minor 7th chords) on the way down.

5) Vary the One-Handed Roll. The independent roll used in exercises 3a and 3c can be played on different pitches and intervals. I particularly like using a 5th (G-D) in place of the octave. I also try to keep the dynamic down as low as possible, and often use a pair of very hard mallets in the rolling hand, while rolling slowly and softly, to develop better independent roll finesse. As noted in the score, you can leave out the roll during these exercises if you would rather focus on the interval changes exclusively.

6) Change the Tempo. Obviously, the routine, or any of the individual exercises, could be played at a tempo other than quarter = 80. I have found that, with the rhythmic variations listed above, I don't really need to increase the tempo to get more out of the routine. If you find that some of them are too difficult at 80, do not hesitate to slow down. Playing any exercise correctly is far more important than playing it quickly.
